

History of St. Henry's Relationship With St. Jude Parish in Haiti

The St. Henry Family has supported a parish in Haiti since 1988. In 2008 we officially adopted St. Jude Parish in Port-au-Prince lead by Fr. Andrew Laboratorio. There are 70,000 people living in the parish, the majority living in poverty.

In the fall of 2009 we raised \$219K to build a much needed medical clinic (original goal \$80K)! After a delay due to the 2010 earthquake, the land was purchased in April 2011 and construction began in June. The clinic was finished and opened in August 2012.

St. Henry continues to support Fr. Andrew's pastoral efforts with a monthly collection and a separate fund for maintaining the clinic.
